In addition to teaching a Paramedic Program, Casey has been involved with all aspects of prehospital education and continues to teach area paramedics and other hospital providers.

Jeremy Gonda, MD

grew up in Reno, NV attending McQueen High School and the University of Nevada earning my undergraduate degree in psychology. Right after high school I received my EMT-II license and worked with the patient transport department at the then called Washoe Medical Center and participated in event medicine including Hot August nights and concerts. I also worked with as a Ski Patroller at Sky Tavern and was the EMT supervisor at Wild Island for several years. After a 2 year mission to El Salvador then finishing my undergraduate degree, I attended medical school at the University of Nevada School of Medicine. Early in medical school, I chose a career in Emergency Medicine and attended residency in Albuquerque at the University of New Mexico. During residency I realized that the sickest patients were the most fun to take care of so I decided to continue my training by completing a 2 yr fellowship in Critical Care at Stanford Hospitals in Palo Alto, CA in 2012. Upon completion of my training and realizing I needed to finally settle down and actually work a big boy job, I moved back to Reno with my wife and 5 children and took a job at Renown Medical Center in the Intensive Care Units. In wanting to keep up a career in the emergency department as well, I originally took a part time job at Banner Churchill in the ED eventually transitioning to Saint Mary's Regional Medical Center to avoid the long commute. As if life wasn't busy enough, I was offered the medical directorship at Care Flight and have been working with them for the last 2 years. I enjoy teaching, working, spending time with my family and being outdoors on skis or a paddleboard or bike depending on the weather.

Barry Smith, Paramedic, retgrumpybear311@gmail.com

Barry began his EMS career in 1978 working as an EMT on an ambulance in the San Francisco Bay Area answering 911 calls in Alameda County. He graduated from the Stanford Paramedic Program in 1980 and worked in Santa Clara County for twenty-two years as a street medic and paramedic supervisor. In addition, he was a volunteer firefighter in Morgan Hill, California. He began working for REMSA in 2002 as a paramedic and was the CQI Coordinator for five years. For the past ten years, Barry worked as a per diem instructor in the REMSA Education Dept. In addition, he worked for the Nevada State EMS Office for a short period of time. He has been a published author for 35 years with over 300 magazine articles and six books to his credit, most on EMS and aviation topics.

Kris Deeter, MDkhdeeter@gmail.com

Kris Deeter is a MEDNAX Pediatric Intensivist practicing in Reno, Nevada. She is the Medical Director of the Pediatric Intensive Care Unit and Inpatient Pediatrics at Renown

Children's Hospital. In affiliation with the University of Nevada Reno, she serves as Associate Professor and Division Chief of Pediatric Critical Care and in the Chief of Pediatrics for Renown Regional Medical Center. Dr Deeter is originally from Northern California growing up in Redding and completing her undergraduate studies at the University of California at Berkeley. She completed her pediatric residency in 2001 in San Antonio, Texas at UTHSCSA then practiced general pediatrics (including urgent care and ER) for the National Health Service Corps. She led a hospitalist group at UTHSCSA, then transitioned back to private practice in Columbus, GA. Dr Deeter returned to training and completed a pediatric critical care fellowship at Seattle Children's Hospital in 2009. She then worked in a large mixed CICU and PICU in South Florida, Joe DiMaggio Children's Hospital. Returning home in 2016, she moved to Reno for an exciting opportunity to develop and lead a rapidly growing inpatient program at Renown. In addition to her inpatient work, she is also employed by REMSA to provide pediatric training to Northern Nevada's paramedic, fire and Care Flight transport teams. Kris has been married for 21 years to a trauma surgeon who served in the military, and they have one daughter in college and another finishing high school. She is an avid skier, biker, hiker and pickleball player.

Dan Coll, PA-c

Dan is currently employed at the Tahoe Forest Hospital District for the Orthopedic Service. He assists in the evaluation and admission of orthopedic injuries in our emergency department. He also perform as the surgical first assistant and follow and co-manages the elective and acute orthopedic inpatients. In addition he also works on long term planning for the Orthopedic Service Line. The group recently joined the Own the Bone Fragility Fracture program and registry, for which he serves as the site coordinator. They are in the process of joining the California Joint Replacement Registry and he will be the site coordinator. Prior to his current position he was employed for 8+ years at Renown Regional Medical Center (formerly Washoe Medical Center) for the Orthopedic Trauma Service and prior to Renown, he was employed in a joint practice with a general orthopedist and a hand specialist. By working with a generalist and hand specialist, he garnered a strong foundation for orthopedics, both chronic and traumatic injuries. Dan was also employed at Harborview Medical Center's Urgent/Ambulatory Care in the main Emergency Department and previously at Kern Medical Center. Dan's ER experience allows him to stay current with general medical issues which is an asset when evaluating and managing patients for pre-operative evaluation, inpatient care, and post-operative care. His educational experiences as a health care team member include various settings at large medical centers and private medical offices in primary, as well as, specialty disciplines of orthopedics, general surgery, urology, obstetrics and gynecology, and emergency medicine. Dan also have over 18 years of pre-hospital BLS and wilderness medicine as a ski patrolman and commercial raft guide.
